Amazing Race

The Scoop

This activity is a team based “race” that showcases both teamwork and the incredible Doral Arrowwood Property. Loosely based on the TV hit *The Amazing Race*, teams are required to use GPS units to seek out and solve a series of different challenges. Once solved, the next clue and set of coordinates becomes clear. There are points awarded for speed and accuracy as teams pick up various clues and objects with roadblocks, detours, yields and stops along the way. This activity will highlight many of the skills needed to succeed in a competitive environment, and, of course, bragging rights for the first team to cross the finish line.

What is this activity all about/ How will this activity energize my team?

- High energy
- Getting to know your team
- Lots of laughter
- Time management and risk vs. reward
- Collaboration

Is this activity very physical?

- This activity can be as physical (or not) as you want it to be. This is a timed event and teams tend to move as fast as they can from one challenge to the next. We always encourage everyone on the entire team to participate.

How many people can participate?

- 25 – 400 people

How long can we play?

- Depending on the desired level of competition, this activity generally lasts about 3 – 4 hours

Indoors or out? How much space do we need?

- This activity requires the outdoor setting to be successful. There are many indoor “back up” activities if groups do not want to participate in the inclement weather or if there are dangerous weather conditions.
