

Project Excel ***Pit Crew Challenge***

The Scoop

The most popular racing series in America is NASCAR; this team sport is most famous for its highly coordinated mid-race “pit stop maintenance.” Every car comes in mid-race for a tire change, refueling, and other repairs. It is crucial for the pit team to get the car back on the track as soon as possible. The best teams can get a car back on the track with a new set of tires and a tank full of gas in less than 15 seconds! Is your team up for the Pit Crew Challenge?

Is it a REAL Race car?

Yes, we provide an Official Pepsi sponsored Jeff Gordon race car.

Do you provide instruction and equipment?

Yes, we will show your team how to use the pneumatic high-speed impact guns and how to roll tires, etc. Safety gloves and glasses are provided.

What is this activity all about/ How will this activity energize my team?

- High energy
- Performing under pressure
- Lots of laughter
- Great pictures

Is this activity very physical?

- There are many roles for team members in this activity and it can be as physical (or not) as you want it to be. We encourage everyone on the entire team to participate.

How many people can participate?

- From 10 – 100 people; however, additional activities can be added for larger groups due to the fact that only one race car is available.

Indoors or out? How much space do we need?

- We can accommodate this activity inside or outside. If inside, there must be a door large enough to allow the car to enter the building and the room must be large enough to accommodate the group. This Racecar does not have an engine in it so there is no need to worry about car fluids staining floors etc. Additionally the impact guns only require 110 volts.

Rates Start At: \$115/person
